

Special needs,
extraordinary potential

Sensory Processing Disorder And the Holidays

Thursday, November 19, 2020
6:30-8:00

The Holidays can bring a whole new set of challenges for our children who struggle with sensory processing.

Join us for Parent Night where you will learn:

- The names and characteristics of the types of sensory processing disorder.
- General tools to use for kids throughout the year.
- Specific strategies to use for each sense when kids get over-stimulated during the holidays.
- Tips on pre-teaching and training with kids, along with specific tools to implement.

Please register to participate virtually:
