

DEERFIELD *Elementary*

LEARNING AND ACHIEVEMENT FOR ALL STUDENTS

Front Entry Remodel

This past summer, our front entry was remodeled. This included moving the second set of front doors closer to the office, installing cameras, and a buzzer system. We are better able to monitor who enters our school as a result of the remodel.

✧ A Great Place to Be ✧

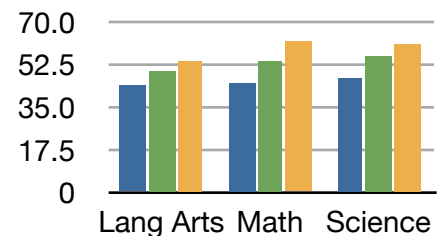

Since our doors first opened in the fall of 2002, Deerfield has been fortunate to have amazing students, supportive and involved parents, as well as a dedicated and talented faculty and staff. Deerfield truly is a GREAT place to be!

~Caroline Knadler, Principal

In the spring of 2015, our third through sixth graders took the Student Assessment of Growth and Excellence (SAGE). Our students performed well, with our percentage of students proficient being above both the State and District percentages. The results show the strength of our school but also indicates areas where we can improve.

2014 - 2015 School Improvement Plan

Deerfield Elementary received \$53,467 in Trust Lands funds for the 2014-2015 school year. Our School Community Council, composed of parents, teachers, and administration, using school achievement data, determined Trust Lands funds would be used to improve student achievement in reading and math. Deerfield students benefitted greatly from these resources and programs. Our students made great progress in both language arts and mathematics this past year. Trust Lands funds were used to support the following:

Chrome Books: Laptop computers purchased for grade 3 and 4. Students used the computers to access online literacy and math resources.

Double Dose: An intervention held during track time with a focus on literacy and comprehension.

Math Aides: Grade levels had access to an aide four days a week for math support.

STAR Reading: An intensive one-on-one literacy intervention for students grades 1 - 3.

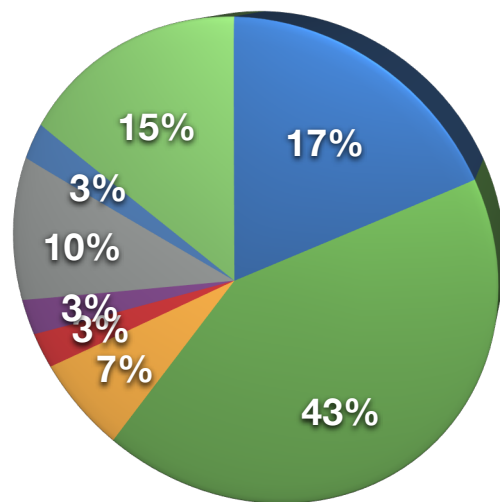

Kindergarten Aide: Tutored students one-on-one to build math and literacy skills.

Take Home Reading: This program supplied students with level appropriate books to be read at home.

Summer Planning: Teams of teachers were given additional time to plan lessons and assessments.

Literacy Coordinators: Two teachers trained our Double Dose aides, gathered data and designed the daily lesson plans for Double Dose.

Trustland Spending

- Chrome Books
- Aides - Double Dose, Math, Stars, & Kindergarten
- Take Home Reading
- Summer Planning
- Literacy Coordinators
- Mastery Connect
- Conferences
- Benefits
